

#120 / Margin Enforcement

Sample Company: 0011

Summary: The following suppliers have transactions below the margin threshold, resulting in quantifiable margin leakage. Buyer for each load is included.

Table:

Supplier	Load #	Material	Margin (\$/lb)	Shortfall (\$)	Buyer
AC Metals	10412	HMS	\$0.05	\$1,500	Jane Smith
Brick City	10523	Aluminum Cans	\$0.04	\$920	Mike Johnson
River Recycle	10788	OCC	\$0.03	\$740	Jane Smith
Green Loop LLC	10800	Shred	\$0.02	\$680	Sarah Nguyen
Eco Metal	10902	Tin	\$0.03	\$590	Mike Johnson

Net Impact: \$4,270 in recoverable margin through immediate reprice or renegotiation.

Suggested Action: Flag these loads for supplier pricing review and fast-track margin recovery.

Escalation Path: Notify Buyer → Commercial Manager (logic: margin below threshold, per Margin Sentinel protocol)

Confidence Score: High

Execution Tier: 2 (Auto-Flag + Notify)

Potential Next Steps:

Would you like to simulate alternate pricing?

Should I flag these suppliers for leadership?

Add this margin delta to your report?

At your convenience.

Respectfully, ScrapDI Team
